EDUCATION

Boston University College of Art and Science, B.A. in Computer Science

Boston, MA

Relevant Coursework:

Sep 2022 - May 2026

Algorithms, Distributed Systems, Concepts of Programming Languages, Computer Systems, and Cybersecurity

RELEVANT EXPERIENCES

Asia Inter Rice Co., Ltd.

Bangkok, Thailand

Software Developer (Freelance)

August 15, 2025 - August 28, 2025

- Automated a critical business workflow by developing a Python backend to extract data from PDF, Excel, and XML files, resulting in significant efficiency improvements.
- Packaged the complete front-to-back solution as a standalone executable for easy client deployment and use.

Datapro Computer Systems

Bangkok, Thailand

Software Developer (Intern)

May 19, 2025 - August 10, 2025

- Delivered an end-to-end passports manager mobile application for travel agencies using React Native (frontend) and Spring Boot (Java)/ PostgreSQL (backend).
- Streamlined deployment using Docker and GitLab.
- Ensured application stability by conducting QA testing using Selenium before User Acceptance Testing (UAT).

Asia Inter Rice Co., Ltd.

Bangkok, Thailand

IT Support Technician (Intern)

May 15, 2024 - July 15, 2024

- Reduced technical downtime by rapidly diagnosing and resolving network, hardware, and software issues for staff, demonstrating strong real-world troubleshooting skills.

PROJECTS

3D Interactive Portfolio (JavaScript · Three.js · Node.js · Vite · Sass (SCSS) · Blender · GSAP · HTML5)

- Designed and transformed my portfolio into an engaging, interactive 3D environment using Three.js and Blender assets.
- Optimized 3D scenes using GLTF compression and GSAP animations, balancing visual quality with performance.

PocketVault – USB-Based Password Manager (JavaScript · Chrome Extensions API · SQLite · FastAPI · PyInstaller)

- Engineered an offline-first security solution that stores credentials on a USB drive using AES-256-encrypted SQLite via a FastAPI backend.
- Developed the Chrome extension UI and core features, including autofill and credential capture.

QR Code Generator & URL Shortener (Python · Flask · Tailwind CSS · JavaScript · Google Cloud · Docker · GitHub Actions)

- Developed and deployed a public QR code and URL shortener on Google Cloud Platform (GCP), integrating Firestore and Cloud Storage.
- Established a robust CI/CD pipeline via GitHub Actions to fully automate Docker image building and service deployment.

SIEM with Wazuh on AWS EC2 (Wazuh SIEM · AWS · Amazon Linux 2 · Nginx)

- Deployed and configured Wazuh SIEM on AWS EC2 to establish centralized security monitoring and log aggregation.
- Validated the system's ability to alert on security events by integrating Nginx logs and simulating failed logins.

CERTIFICATES

CompTIA Certificates:

- [CompTIA Network+](#)
- [CompTIA IT Fundamentals \(ITF+\)](#)
- [CompTIA Security+](#)
- [CompTIA A+](#)

SKILLS

Programming Languages:

Python, Java, Bash, Javascript, HTML, CSS & SCSS, C, Go, and OCaml

Tools:

AWS, Linux, Windows, Microsoft Office, Wazuh, Visual Studio, Github, Docker, Node.js, Vite, Three.js, Gitlab, Android Studio, Expo Go
