Education

Master of Engineering in Computer Science, *Cornell University (Cornell Tech)* 08/2026 – 05/2027 | New York, NY
Coursework: Applied Machine Learning, Optimization Methods, Networks & Markets, Product Studio.

Bachelor of Arts in Computer Science, *Boston University* 09/2022 – 05/2026 | Boston, MA
GPA: 3.61/4.00
Coursework: Distributed Systems, Cloud Computing, Database Systems, Analysis of Algorithms, Cybersecurity.

Work Experience

Forward Deployed Software Engineer (Part-time), *Asia Inter Rice Co., Ltd.* 08/2025 – 08/2026
- Architected an automated purchase-order ETL platform (Python, Flask, Pandas, Electron) across 11 retail partners, standardizing PDF, XML, and Excel feeds into ERP records to cut processing time by >90%.
- Engineered a high-throughput C++ and Python multi-bank reconciliation engine backed by SQL databases, automating statement parsing, fuzzy transaction matching, and daily ledger auditing across accounts.
- Built an automated Google Cloud Vision OCR document pipeline to extract structured billing metrics from unstructured field images, eliminating 20+ hours/week of manual accounting entry.
- Shipped containerized full-stack billing and operations microservices (React, FastAPI, Docker) on GCP Linux VMs with blue-green deployments and automated LINE webhook workflows, reducing overdue receivables by 80%.

Software Developer Intern, *Datapro Computer Systems* 05/2025 – 08/2025
- Developed a full-stack identity-processing platform (React Native, TypeScript, Spring Boot, PostgreSQL) with real-time OCR document extraction, deployed via Docker on Linux servers.
- Architected automated Docker and GitLab CI/CD pipelines with strict staging-to-production parity, reducing deployment cycle times by 40% across engineering teams.
- Built automated end-to-end regression test suites using Selenium and Jira, resolving 30+ critical concurrency and performance bottlenecks prior to production release.

Technical Projects

AI Text Detection & Hybrid Ensemble Pipeline , *PyTorch, Hugging Face, Scikit-learn, SciPy, CUDA*
- Fine-tuned a DistilBERT model in PyTorch and trained CUDA-accelerated XGBoost, LightGBM, and CatBoost ensembles across 13,000+ texts, achieving 0.9864 test AUROC.
- Built a multiprocessing feature pipeline using Scikit-learn, SciPy (sparse CSR matrices), NumPy, Pandas, and Joblib to extract and reduce (TruncatedSVD) 250K+ lexical and statistical features.
- Configured reproducible PyYAML training pipelines and Scikit-learn cross-validation to handle a 28.3% shift in unseen text genres, cutting classification error by 40%.

Skail — Multi-Agent Autonomous Coding Harness , *Rust (Tauri), React, TypeScript, Python, LangGraph, SQLite*
- Architected a native desktop workspace and CLI pairing a React 18, TypeScript, and Tauri (Rust) host with an isolated Python engine over JSON-RPC, backed by crash-safe SQLite state journaling and 3,800+ automated tests (Pytest, Vitest, Cargo).
- Built a LangGraph multi-agent orchestrator coordinating concurrent subagents with native OpenAI, Anthropic, and Gemini SDK streaming, sandboxed multimodal file/image parsing, and strict pre-execution token budget gates.

Cloud Infrastructure & Distributed Data Pipelines , *Docker, Kubernetes (GKE), Apache Beam, Cloud SQL, GCP*
- Engineered distributed Apache Beam streaming pipelines on Cloud Dataflow and Pub/Sub to process 10M+ records, deploying containerized GKE microservices behind multi-zone Layer 4 Load Balancers with <3s failover recovery.

Technical Skills

- Languages: Python, Java, C++, SQL, Bash, TypeScript, Rust, JavaScript, Go, C.
- AI & Machine Learning: PyTorch, Hugging Face Transformers, Scikit-learn, CUDA, LangGraph, OpenAI / Anthropic / Gemini SDKs
- Backend & Cloud Infrastructure: FastAPI, Spring Boot, Flask, React, React Native, Docker, Kubernetes (GKE), Apache Beam, Dataflow, Pub/Sub, AWS (ECS, EC2), GCP, Linux, NGINX.
- Databases & Tooling: PostgreSQL, Cloud SQL (MySQL), SQLite, Git, GitLab CI/CD, GitHub Actions, Selenium, Pandas, Electron.
- Certifications: CompTIA Security+, CompTIA Network+, CompTIA A+
