EDUCATION

Boston University College of Art and Science, B.A. in Computer Science

Boston, MA

Relevant Coursework:

Sep 2022 - May 2026

Algorithms, Distributed Systems, Concepts of Programming Languages, Computer Systems, and Cybersecurity

RELEVANT EXPERIENCES

Asia Inter Rice Co., Ltd.

Bangkok, Thailand

Software Developer (Freelance)

August 15, 2025 - August 28, 2025

- Developed a Python backend to automate data extraction from PDF, Excel, and XML files, significantly improving data processing efficiency; deployed the complete solution, including a frontend, as a standalone executable.

Datapro Computer Systems

Bangkok, Thailand

Software Developer (Intern)

May 19, 2025 - August 10, 2025

- Developed a full-stack passports manager mobile application to be used by travel agencies, from design to deployment, using React Native and a Spring Boot Java backend. The project utilized PostgreSQL, GitLab, Docker, Android Studio, and Expo Go.
- Conducted QA testing using Selenium on a different web application to ensure its functionality and stability before user acceptance testing (UAT).

Asia Inter Rice Co., Ltd.

Bangkok, Thailand

IT Support Technician (Intern)

May 13, 2024 - July 12, 2024

- Refurbished PCs by replacing faulty components, removing virus infections, and renewing software licenses. Saving approximately \$12K in hardware and software replacement costs
- Resolved hardware/software issues, saving over \$20K in total costs during an 8-week internship

PROJECTS

PocketVault – USB-Based Password Manager (JavaScript · Chrome Extensions API · SQLite · FastAPI · PyInstaller)

- Developed a Chrome extension that securely stores website credentials on a USB drive using AES-256-encrypted SQLite and a FastAPI backend.
- Led front-end development, building the extension UI and core features like autofill, credential capture, and secure master key handling. Also packaged the FastAPI backend into a Windows executable for easy deployment.

QR Code Generator & URL Shortener (Python · Flask · Tailwind CSS · JavaScript · Google Cloud · Docker · GitHub Actions)

- Developed a responsive QR code generator and URL shortener and deployed it on Google Cloud
- Integrated Firestore (URL storage) and Cloud Storage (QR image storage)
- Implemented a CI/CD pipeline via GitHub Actions to automate Docker image building, pushing to Google Cloud Artifact Registry, and deployment

SIEM with Wazuh on AWS EC2 (Wazuh SIEM · AWS · Amazon Linux 2 · Nginx)

- Deployed Wazuh SIEM on AWS EC2 (Amazon Linux 2) for centralized log aggregation, event monitoring & alerting. Integrated Nginx logs and validated alerts via simulated failed logins.

CERTIFICATES

CompTIA Certificates:

- [CompTIA Network+](#)
- [CompTIA IT Fundamentals \(ITF+\)](#)
- [CompTIA Security+](#)
- [CompTIA A+](#)

SKILLS

Programming Languages:

Python, Java, Bash, Javascript, HTML, CSS & SCSS, C, Go, and OCaml

Tools:

AWS, Linux, Windows, Microsoft Office, Wazuh, Visual Studio, Github, Docker, Node.js, Vite, Three.js, Gitlab, Android Studio, Expo Go
